RE: ML 48636-MP, Reclamation at Red Knoll Property; DOGM Permit S/015/083
Reclamation Bond , CD #

Gentlemen:

The above numbered permit expired on January 31, 2004. The Trust Lands Administration presently holds Quality Building Stone's CD # in the amount of \$2,000.00 as bond to ensure reclamation of mining disturbances and payment of royalties upon the permitted lands. Please immediately reclaim the mining disturbances and submit a statement of production and royalty in order to secure release of the bond.

Reclamation requires that Permittee re-grade cuts dug into the sandstone ledges at the north end of the permitted lands, and fill material from the drainage where the access trail crosses.

Royalty settlement requires that Permittee complete the enclosed production form and submit it along with any royalties accruing to the trust.

Please contact me at (801) 538-5152 if you have any questions.

Sincerely,

John T. Blake
Mineral Resources Specialist
